

We have been enjoying the K-LOVE radio program in our Indiana area for over six months now and don't want it to get taken off the air. It is a family friendly station that we can trust to bring us encouragement, with no crude or rude DJ's. We like the music and not having to hear endless commercials, like other stations have.

K-LOVE provides a unique style that we have enjoyed in two other States as well. California, and Colorado. Please let them stay on the air, many others enjoy K-LOVE as well. Thank You.
